Underlying Fund

The Fund primarily invests in a diversified portfolio of global liquid and illiquid asset classes via its investment in the CION Ares Diversified Credit Fund (**Underlying Fund**). The Fund also invests in cash and foreign exchange hedging instruments. In this report, where we refer to the Fund's investments we generally do so on a 'look-through' basis; that is, we are referring to the underlying assets that the Fund is exposed to through its investment in the Underlying Fund.

Underlying Fund Overview

The Underlying Fund's investment objective is to provide superior risk-adjusted returns across various market cycles by investing in a diversified portfolio of liquid and illiquid asset classes. The Underlying Fund seeks to capitalise on market inefficiencies and relative value opportunities throughout the entire global credit spectrum. The Underlying Fund seeks to achieve its investment objective by employing an opportunistic, dynamic and unconstrained global credit investments strategy based on absolute and relative value considerations and its analysis of credit markets. It seeks risk-adjusted returns over full market cycles by creating and managing a portfolio with balanced exposures to multiple industry sectors and geographic regions, systematically allocating capital across multiple segments of the global fixed-income markets, including U.S. and non-U.S. credit instruments.

The outbreak of a novel and highly contagious form of coronavirus ("COVID-19"), which the World Health Organization has declared to constitute a pandemic, has resulted in numerous deaths, adversely impacted global commercial activity and contributed to significant volatility in certain equity and debt markets. The global impact of the outbreak is rapidly evolving, and many countries have reacted by instituting quarantines, prohibitions on travel and the closure of offices, businesses, schools, retail stores and other public venues. Businesses are also implementing similar precautionary measures. Such measures, as well as the general uncertainty surrounding the dangers and impact of COVID-19, are creating significant disruption in supply chains and economic activity and are having a particularly adverse impact on energy, transportation, hospitality, tourism, entertainment and other industries. The impact of COVID-19 has led to significant volatility and declines in the global financial markets and oil prices and it is uncertain how long this volatility will continue. As COVID-19 continues to spread, the potential impacts, including a global, regional or other economic recession, are increasingly uncertain and difficult to assess. Any public health emergency, including any outbreak of COVID-19 or other existing or new epidemic diseases, or the threat thereof, and the resulting financial and economic market uncertainty could have a significant adverse impact on the Fund, the value of its investments and its portfolio companies. The performance and portfolio company information herein is as of the dates herein and not all of the effects, directly or indirectly, resulting from COVID-19 and/or the current market environment may be reflected herein. The full impact of COVID-19 and its ultimate potential effects on portfolio company performance and valuations is particularly uncertain and difficult to predict.
