Underlying Fund

The Fund primarily invests in a diversified portfolio of global liquid and illiquid asset classes via its investment in the CION Ares Diversified Credit Fund (**Underlying Fund**). The Fund also invests in cash and foreign exchange hedging instruments. In this report, where we refer to the Fund's investments we generally do so on a 'look-through' basis; that is, we are referring to the underlying assets that the Fund is exposed to through its investment in the Underlying Fund.

Underlying Fund Overview

The Underlying Fund's investment objective is to provide superior risk-adjusted returns across various market cycles by investing in a diversified portfolio of liquid and illiquid asset classes. The Underlying Fund seeks to capitalize on market inefficiencies and relative value opportunities throughout the entire global credit spectrum. The Underlying Fund seeks to achieve its investment objective by employing an opportunistic, dynamic, and unconstrained global credit investments strategy based on absolute and relative value considerations and its analysis of credit markets. It seeks risk-adjusted returns over full market cycles by creating and managing a portfolio with balanced exposures to multiple industry sectors and geographic regions, systematically allocating capital across multiple segments of the global fixed-income markets, including U.S. and non-U.S. credit instruments.

Performance Commentary

From an Fx perspective, the AUD USD forward curve was stable in January and had little impact on the Underlying Fund's performance.

Underlying Fund Growth of \$10,000 Since Inception (net of fees)⁹

⁹This graph illustrates the performance of a hypothetical \$10,000 investment made in this Fund from the inception date of the product. This is represented as the change in total return at monthly intervals. Total return is a measure of the change in NAV including reinvestment of all distributions and is presented on a net basis reflecting the deduction of fund expenses and applicable fees with expense support provided by CION Ares Management (CAM). The performance quoted represents past performance, is no guarantee of future results and may not provide an adequate basis for evaluating the performance of the Fund over varying market conditions or economic cycles. Investment return and principal value of an investment will fluctuate; therefore, you may have a gain or loss when you sell your shares. Current performance may be higher or lower than the performance data quoted.
